## EXPERIENCE

JAN 2014  
AUG 2014

### BLOOMBERG CAPSTONE | PITTSBURGH, PA

Interaction Design and UX Research

- Gathered user needs and defined the problem space to reimagine corporate calendaring and scheduling tools for Bloomberg employees through primary and secondary research.
- Developed a qualitative research method called Sensory Association to uncover emotions and relationship with calendar.
- Iteratively designed, prototyped, and tested our concept of a mobile application called Bloomberg Connect.

JAN 2012  
DEC 2012

### INTEL | BEAVERTON, OR

UX Design Intern

- Ideated and visualized concepts of products and services based on existing needs of ministries of education, administration, teachers, and students in K-12 education in emerging markets.
- Designed and created storyboards, wireframes, mock-ups, and prototypes in Axure and HTML, of content distribution and management solutions that interfaced with the various roles.
- Evaluated user experience of solutions in Intel's education suite and prioritized and communicated value of design changes.

JAN 2011  
JUN 2011

### FONEASTRA + PATH | SEATTLE, WA

Interaction Design and UX Research

- Collaborated with international NGO, PATH, and a multidisciplinary team to develop the interface for a low-cost device to assist with safe flash pasteurization of breast milk.
- Designed the interaction and feedback of the system by conducting secondary research, field experiments, and interviews with subject-matter experts.
- Created and facilitated think-aloud studies to evaluate usability of the system through two iterations.

*As a result, PATH recieved the Gates Grand Challenges Award of \$100,000 for continuing research and development and successfully piloted the system in South Africa.*
